

## Page 1 : Welcome page

### 5 Characteristics about it:

- The welcome page displays 2 medium sized pictures along with a small paragraph under it also a quote under it and a navigation under it.
- All the content is under an <main> tag and I used the text-transform tag and text-shadow in css to make a hover transition for my <h1> tag here .
- Img and Img hover was used for all the images in the page and a box shadow to apply a glow effect when clicked on images
- The background for this page has changing colours , which was made by using the @keyframes to have animation.
- The quote at the bottom is using a similar transition to the welcome page above and uses the hover effect.

### WELCOME PAGE

Hello, my name is Parth Gandhi, I am 18 years old originally from a big city in India called Mumbai. I moved to Vienna in 2023 and completed my high school from Vienna International School. I have then joined IMC to pursue the Infomatics Course. A bit about myself I have always been fascinated by technology and always admired software and programs. One of my fondest childhood memories was at being amazed as how everything I enjoyed virtually as in Video games, Video platform like YouTube etc were also 'coded' in these special languages only computers understand and from there I was set keen on exploring and learning the knowledge of these special languages that we now call as programming languages.

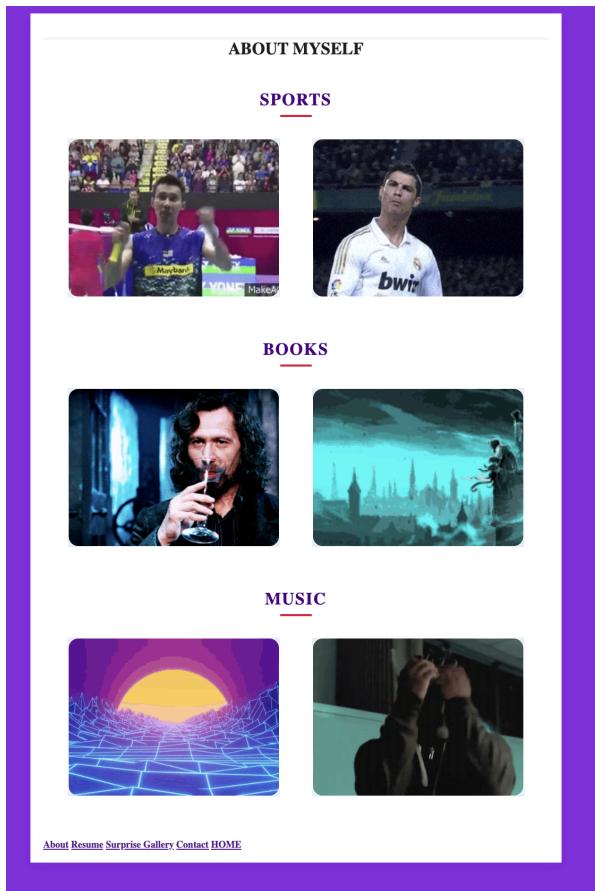

*"embarrassment only lasts a moment , regret lasts from entire lifetime"*

## Page 2 : About Page

### 5 Characteristics about it:

- The About myself section comprises three sections , Sports, Books and Music. Each section comprises 2 gifs each.
- The 3 titles are made by using an crimson outline and the titles use a purple color
- The images are fitted in places using the **width function** and placed side by side using the **display: flex** function which places elements side by side in a row.
- The overlay over the text is done through **.overlay** ,the text is hidden and is displayed when hovered over it.
- The music gif's play music when clicked over the button on them when hovered. This is done using the built in HTML audio player.

## Page 3 : Resume page

### 5 Characteristics about it:

- The cv page is structured using a **.container** which limits the pages width and makes it look more readable.
- Each section of the CV page is wrapped under a hover block which makes the section have an elegant glow when hovered over it.
- The content inside the blocks are initially not visible at first and then once hovered displays the content one by one this is done through **.hover-block-content**.
- The background uses a light aquamarine colour with purple titles to give it a good contrast .
- The bottom of the page has a navigation bar , with links to every other page.

## Page 4 : Gallery page

### 3 Characteristics about it:

- The gallery is based on different kinds of shrimp with cool characteristics. A light beige background is used to give more attention to the images on the page .
- The images are organised using a **figure element** with using **.rows** and **.columns** to arrange them.
- Each image also contains a **figcaption** to give the shrimps their names.

Asian Glass Shrimp

Indonesian Harlequin Shrimp

European Glass Shrimp

Blue Lobster

Japanese Pistol Shrimp

Indian Pistol Shrimp

## Page 5 : Contact page

### 4 Characteristics about it:

- The central container holds the contact form and navigation bar, the form stands out neatly in the middle of the page.
- The pink send button at the bottom uses a **hover** to make it a darker colour when hovered over it , to show your on the button.
- The contact form also has 6 sections which have to be filled out by the user less they cannot submit the form.
- The form also redirects you to a separate page when the form has been filled and been sent.

The screenshot shows a contact form titled "Contact Me" with a light gray background. At the top center, the title "Contact Me" is displayed in bold black font. Below it, a sub-instruction "Fill out the form below to get in touch" is centered. The form consists of six input fields arranged vertically, each with a placeholder label: "Your Name", "Email", "Where are you from?", "Phone Number", "Instagram Handle", and "Your Message". A large, solid pink rectangular button labeled "Send" is positioned at the bottom of the form. At the very bottom, a horizontal navigation bar contains five links: "About", "Resume", "Surprise Gallery", "Contact", and "HOME".
